### Thursday, January 24

8:00 am Session IX

*"Exciting and practical ways to  
respond to Christ's Supremacy"*

Conducted across the country by David Bryant, The Christ Institute focuses on two major themes:

- *Reclaiming a Consequential Christology*, an in-depth presentation of exciting ways to unpack the spectacular supremacy of God's Son for ourselves and others
- *Fostering Christ Awakening Movements*, a look at how we can encourage Christ Awakenings, the great hope for reviving the Church, among God's people where we live

The goal of The Christ Institute is to renew the biblical vistas of the vastness of God's Son and empower you to confront the most pervasive and paralyzing crises in our Christianity today, the "crises of Christology". This crisis impinges directly on the health of our churches and the spiritual awakening of our nation.

If you are unable to join us for all nine sessions please come to dinner and the following evening session each night January 21-23.
